513-569-7821

The U.S. Environmental Protection Agency (EPA) will sponsor a free webinar on the interdependencies between the water and healthcare/public health sectors. The webinar will feature the lessons learned from a series of eight workshops conducted nationally from 2016 to 2018. Prior joint planning and communications between the sectors are vital to better respond to emergencies and protect public health - sign up today and learn more about this critical interdependency.

Register for the webinar at:
